## BRAIN CARE LIGHT Pro

Customized for Brain Health!

## Life In Motion

Life In Motion is a wellness lifestyle brand, a new business division created by S.A.S. Lighting Co. Ltd which is specialized in the design & supply of LED lighting & LED display since 2011.

S.A.S. Lighting Co. Ltd wanted to create a new markets for their products and services to respond to consumer demand on healthy living and which the concept was initially developed in as healthy living has gone mainstream over the past few years.

We always know how quality impacts the products we deliver to our customers. Hence, we are dedicated to the continual improvement of our product's overall quality performance.

From home to office, we are your perfect partner. STAY CLEAN AND HEALTHY, EVERYDAY, EVERYWHERE

# The Global Cognitive Decline Crisis

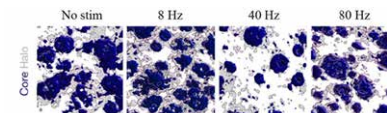

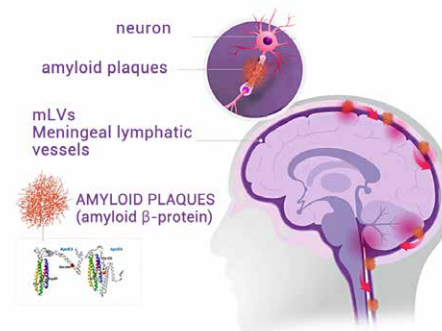

Every 3 seconds, a new case of dementia is diagnosed worldwide. Medications cannot cure the disease, and prolonged use may lead to drug resistance.

Alzheimer's disease accounts for 60–70% of dementia cases and is now the seventh leading cause of death globally.

Caregiving costs are steadily increasing, placing growing pressure on families.

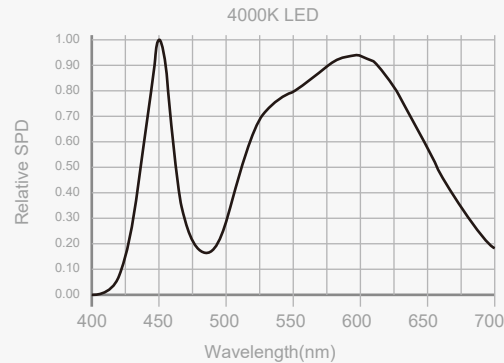

## MIT Study

40Hz light and sound stimulation reduced beta-amyloid and tau protein accumulation in Alzheimer's mouse models, improving cognitive function. Published in Nature.

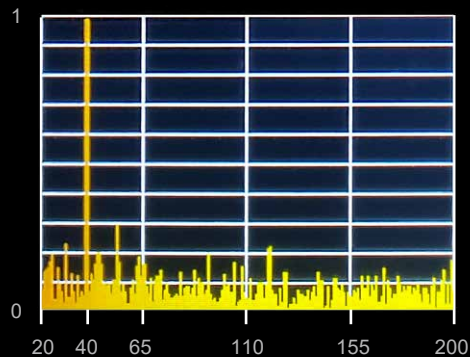

\* Experimental data show that among various frequencies, only 40Hz significantly reduces amyloid plaque formation.

- Light's Spectrum

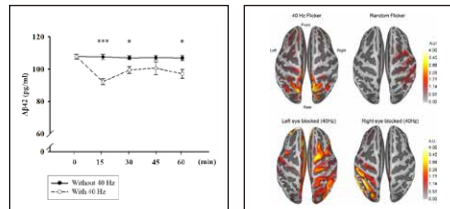

- Invisible Flicker Frequency

# Patented Multi-Frequency Technology

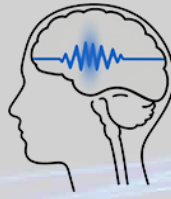

While 40Hz light stimulation can activate brain function, its flicker effect may cause visual stress.

The M+Brain Care Light PRO uses patented multi-frequency technology to integrate 40Hz light waves into regular illumination, allowing users to receive 40Hz brain stimulation without perceivable flicker.

Illuminated by **40Hz** light

After 6 months, the rate of memory and cognitive deterioration slowed by more than 83%.

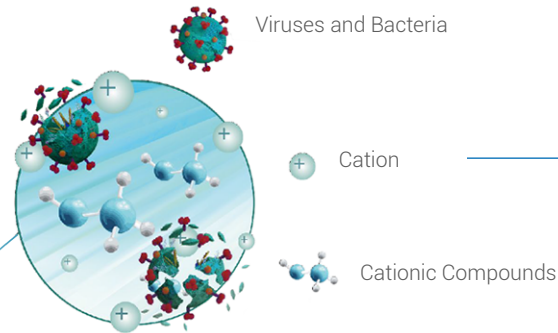

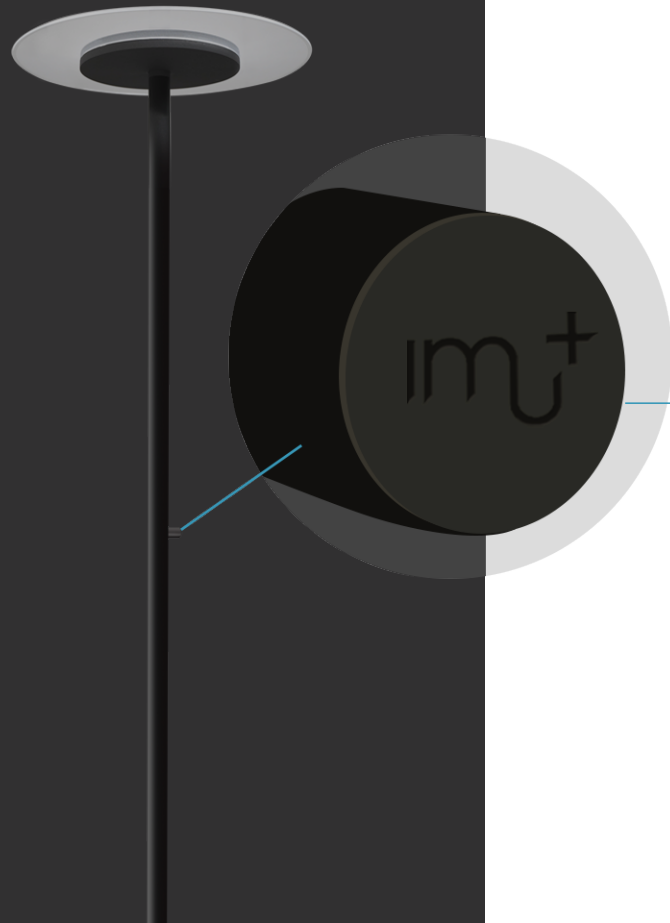

**Powered by Delta  
Electronics patented M+ technology**

Patented & Flicker-Free

Install Anywhere, Use Everywhere

Medical-Grade

Adopting the latest antiviral 3D printing material developed by the Hong Kong Polytechnic University research team.

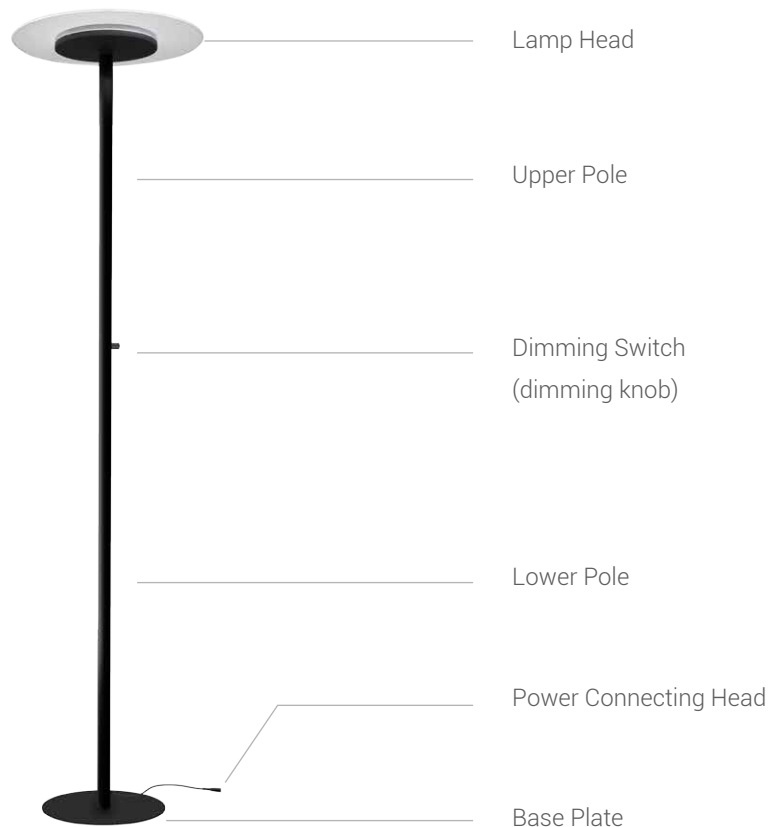

Adopting no-metal composition that kills **>99.9%** of surface pathogens by rupturing viruses and bacteria's cell walls or envelopes.

### Effective Against:

- Human Coronavirus 229E
- K. pneumoniae
- Norovirus
- T. Rubrum
- S. aureus
- E. coli
- H1N1
- H3N2

# Structure

# Main Specifications

Model No.	Brain Care Light Pro
Rated Power	45W
Rated Input	100-240V AC - 50/60Hz
Power Adapter Outputs	48V DC/1A
Power Factor	> 0.5
Correlated Color Temperature (CCT)	4000K
Color Rendering Index (CRI)	> 80
Switch Method	Knob Switch
Shell Material	Aluminum Alloy
Product Weight	Approximately 6 kg
Dimensions	Φ400*1900mm
